

BUSINESS MEN ARE DOING GOOD WORK

Merchants and Manufacturers' Association is Making Rapid Growth in Numbers and Influence.

The recently organized Merchants and Manufacturers' association has developed its activities to such a degree, and the various important questions submitted to it for attention have become so numerous, that the executive committee has been obliged to call upon special committees for assistance.

The number of questions and difficulties common to all business men that become apparent when merchants get together at friendly meetings for general discussions of affairs, is remarkable. The problems presented for adjustment involve so many questions of general interest that it is certain to accomplish much good. Had such co-operation manifested itself years ago the benefits derived up to the present time would have been astounding. Now, after only three months' existence, it is safe to say that the members who have made proper use of the organization would not think of being without such service.

A meeting of the entire membership will be called at an early date for reports of the various committees and secretary, and general discussion of many important matters.

You judge a man not by what he promises to do, but by what he has done. That is the only true test. Chamberlain's Cough Remedy judged by this standard has no superior. People everywhere speak of it in the highest terms of praise. For sale by all druggists.

THE ADAMS.

In every city there is one hotel that stands for the best of everything in the hostelry line, in that place, Adams. Among the notable people who have stopped at the Adams recently are Sir Gilbert Parker, the man famed in every land as a writer and statesman; Madame Ernestine Schumann-Heink, the world's greatest contralto; and Wm. J. Bryan, orator and defeated presidential candidate.

MARK TWAIN SAID.

"A mine is a hole in the ground and the man that owns it is a liar," but a miner's veracity is as good as any other man's, except where his are prospects are concerned and every one of them who has spent a summer in the camps located in the lower altitudes of the state, will tell you that the only better fit to eat during the hot months, is the Haysayampa brand. TREASURY DEPARTMENT
Office of Comptroller of the Currency, Washington, March 12, 1912.

Now, therefore, I, Lawrence O. Murray, Comptroller of the Currency, do hereby certify that "The Phoenix National Bank" in the City of Phoenix in the County of Maricopa and State of Arizona is authorized to have succession for the period specified in its amended articles of association; namely, until close of business on March 12, 1922.

In testimony whereof witness my hand and Seal of office this twelfth day of March, 1912.

THE READER KNOWS.

As well as the writer that the first thing a man does when he buys a lot is to get an abstract of title. That is a provision of the sale and unless the title is good, the sale is off. Unless the company making the abstract, is honest and careful, it is likely to overlook some slight flaw that mars the title to the property. Remember this and employ a company that is known to possess these qualities. The Arizona Abstract Co.

BETTER SEE BALKE BEFORE YOU BUY.

His Mexican drawn work is now selling at reduced prices and you can profit at the opportunity to procure some handsome table linen for a few dollars judiciously expended. The Russian hammered brass sold at the Big Curio is solid, not a veneer. The Indian blankets are direct from the reservation and the native stones are the best gems found in the mountains of this new commonwealth. Balke, Licensed Indian Trader.

THE BUSY BLACKSMITH.

Can save time and money and get better tools if he buys his wares of Talbot and Hubbard. Anyone versed in blacksmithing tools knows that the ones exhibited the past week in the show window of this firm are much better than a smith can hammer out on his own anvil. "At the Sign of the Dog."

SUCCESS.

"Nothing succeeds like success" is demonstrated daily at Boehmer's Busy Drug Store. A corps of clerks are busy continually waiting on the cus-

tomers that stream through its doors. There are several reasons for this popularity—Boehmer is careful in compounding prescriptions, quick in the delivery of medicine, accurate, reliable and his store is convenient to reach being at the junction of the two main streets. Boehmer's Busy Drug Store is the place to buy.

THE HUMAN TORTOISE.

There are persons so slow that they will probably be killed by being run over by the hind wheels of a hearse. There are people in Phoenix who still burn kerosene lamps in preference to electricity. Certainly a penny wise, pound foolish proposition unless their time is so valuable, that they can afford to spend an hour each day keeping the lamps properly trimmed, filled and cleaned and would rather spend their money in oculist's fees. The P. G. & E. Co. are making rates on electricity.

PIONEERS.

Melcher Bros. are pioneers in the wholesale liquor business in Arizona. SHORT-SIGHTED POLICY.

The most short-sighted policy is to take the Policy of outside Insurance Companies because it takes a long sight to see where our good money goes to. A wise policy is to get the Policy of the Arizona Fire Insurance Company because it keeps our money at home and we also get quicker payment of losses.
